All names, addresses, amounts, events, references and communications below are invented solely for software testing. No logo or official branding is used.

Service provider

North Loop Device Lab (fictional independent workshop)
7 Invented Service Lane, Fictional Nagar, Chennai 600000
No manufacturer or authorized-service affiliation is claimed.

Job details

Job reference: SIM-JOB-250203-A
Case reference: SIM-CASE-2601
Service date: 3 February 2025
Customer: Mira Sen
Product/model: Sony WHM1000X wireless headphones / WHM1000X

Reported fault

Customer reported that the headphones unexpectedly power off after approximately two minutes of playback.

Inspection and fictional work

Bench observation recorded intermittent shutdown during playback. Technician reseated the battery connector and performed a simulated firmware reset. No component replacement was recorded.

Recorded outcome

Workshop playback check ran for 20 minutes without shutdown after the work. Returned to customer on 3 February 2025. This is a fictional job record and does not establish a real repair or manufacturer finding.
